VR*CUT*TM Ready TRIUMPH[®]

VR*CUT* by Lytro Software intelligently bridges the gap between pre-press and the finishing process, allowing operators of any experience level the ability to cut with confidence on select Triumph cutters.

The VR*CUT* solution consists of two modules that work together. The Impose module creates PDF documents formatted specifically to work with the VR*CUT* Controller module. The Controller module connects directly to the Triumph cutter moving the back gauge and visually guiding operators through the cutting sequence.

VR*CUT* IMPOSE

The VR*CUT* Impose module is a standalone imposition software that transforms your artwork into PDFs laid out specifically for optimized cutting on the VR*CUT* enabled Triumph cutter. The software places a template barcode and innovative visual markers that enable an automated cutting process. Consolidate your workflows by taking advantage of the software's data merge feature.

VR*CUT* CONTROLLER

The VR*CUT* Controller module connects directly to your Triumph cutter for automatic back gauge movement and provides a step-by-step visual interface. The operator simply scans the document barcode to load the corresponding template and artwork to start the job. The software gives the operator visual indication of paper orientation, paper rotation between cuts, when to discard scraps, and how to process cut sheets. This first of its kind software simplifies the task of cutting, which allows operators with all levels of experience to cut with confidence!

INTELLICUT[®] Aerocut Edition

Cutting edge imposition and template management software integrated with the AeroCut.

DESIGN, PRINT AND FINISH SEAMLESSLY

Intellicut is a groundbreaking approach to efficiently operate and manage your slitter/cutter/creaser document workflow. Easily impose artwork + address data to seamlessly create PDF layouts with job barcodes and cut marks for the AeroCut. Increase your shop's productivity with Intellicut to program and manage your AeroCut template library from any networked PC. Take control of your entire print and finishing workflow process with the Intellicut Software!

AUTOMATICALLY PROGRAM YOUR AEROCUT!

Intellicut directly connects the imposition design process with programming of the AeroCut Slitter/Cutter/Creaser. Use Intellicut to create AeroCut compatible design layouts and compose barcode ready PDF print files with your artwork. That's it! Intellicut will send the exact cut, crease and perforation settings to the AeroCut through your office network connection, allowing your operators to pick up their print and put it right into the AeroCut. The AeroCut reads the barcode and automatically adjusts the machine to create perfectly finished pieces!

INTELLICUT WORKFLOW

STEP 1: Use Intellicut's Smart Layout Assistant to automatically create an AeroCut compatible layout, then add artwork to create your print-ready PDF with the AeroCut barcode.

STEP 2: Intellicut can directly download the document layout template created by Smart Layout Assistant directly to your AeroCut through your office network.

STEP 3: Send the Print Ready PDF created by Intellicut to your printer, these will be perfectly imposed and will include an AeroCut barcode.

STEP 4: Place your print in the AeroCut, it automatically reads the barcode, adjusts the machine precisely and cuts! Even if page layouts change, the AeroCut adjusts on-the-fly.

TRIUMPH CUTTERS

Manufactured in Germany by MBM’s parent company, Krug & Priester, Triumph cutters are world renowned for their power, precision, and ease of operation. Exclusive SCS safety features put them among the safest cutters in the world.

All Triumph cutters are certified under a quality management system established in all company areas under the DIN EN ISO 9001:2008 standards. All are tested by independent safety labs, comply with all international safety regulations, and are certified by Underwriters Laboratories for the US and Canada.

SCS (Safety Cutting System) is a combination of innovative design features which ensure the highest standards of safety. They protect the operator during the cutting process and while performing routine maintenance.

SCS Features:

- hinged, transparent front safety guard (locks during cutting process on manual cutters; electronically controlled on electric models) or front safety curtain
- safety cover on rear table (models 4705-7260)
- main switch and safety lock with key
- electronically controlled, true two-hand operation
- patented IDEAL safety drive
- automatic blade return from every position
- automatic clamp return from every position (on cutters equipped with automatic clamps)
- disc brake for instant blade stop
- blade and cutting stick can be changed without removing covers
- blade changing device covers cutting edge of blade
- blade depth adjustment from outside of machine

TRIUMPH CUTTER FEATURES

HIGH QUALITY BLADES

All Triumph cutter models feature high quality, German steel blades.

SIDE GUIDE BACK GAUGE SCALE

A measurement scale on the side guide ensures precise back gauge setting (models 4300, 4305).

FAST-ACTION CLAMP

Swing and bump the lever on the fast-action clamp to tighten, then cut (models 4300, 4305, 4315).

EASY CUT BLADE ACTIVATION BARS

Patented EASY CUT blade activation bars provide true two-hand operation (models 4315 and above).

OPTICAL CUTTING LINE

The optical cutting line indicator with bright LEDs ensures perfect alignment of cutting marks (models 4315 and above).

FRONT TABLE DIGITAL DISPLAY

A digital measurement display allows precise positioning of back gauge (models 4315–4850).

EASY-TO-USE TOUCHPAD

A multilingual, programmable touchpad module controls the back gauge on models 5255–7260.

IR SAFETY CURTAIN

The IR light beam safety curtain covers the work area to ensure the highest level of operator safety (models 5260, 6660, 5560, 7260).

PROGRAMMABLE BACK GAUGE

The 5560/5560 LT and 7260 have a 7” programmable back gauge control module capable of storing 99 programs with 99 steps each in memory.

TRIUMPH 4300

Economical manual tabletop cutter with fast-action clamp.

Features:	
Type of machine:	Manual
Cutting width:	16 7/8"
Cutting height:	3/4"
Narrow cut:	1 1/2"
Cutting length behind blade:	13 3/8"
Table length in front of blade:	6 1/4"
Shipping weight:	95 lbs
	121 lbs with stand
	190 lbs with cabinet

Dimensions: (D x W x H), inches: 22 1/2 x 28 x 18 1/2 (47 1/2 H with stand, 46 3/4 H with cabinet)

TRIUMPH TRIMMERS

Manufactured in Germany by MBM's parent company, Krug & Priester, Triumph trimmers are built to the same exacting tolerances as Triumph cutters. All trimmers feature sturdy, all-metal construction and the finest Solingen steel blades.

Every Triumph trimmer features stationary or movable transparent Lexan safety guards. All models are tested by independent safety labs and comply with all applicable international safety regulations. Triumph trimmers are certified under a quality management system established in all company areas under the DIN EN ISO 9001:2008 standards.

TRIUMPH TRIMMER FEATURES

PROTRACTOR
Models 1030 and 1031 are equipped with a protractor for angle cuts.

MEASUREMENT BRACKET
The measurement scale bracket can be used as either a front or back gauge (models 1030, 1031).

HARDENED STEEL BLADE
All rotary trimmers are equipped with self-sharpening, hardened steel blades.

SAFETY CUTTING HEAD
The comfortable, ergonomically designed cutting head ensures safe and precise cuts.

MEASUREMENT SCALE
The cutting table measurement scale allows perfect alignment of paper (models 0055 and above).

EASY-LIFT LEVER
The patented paper release lever raises the automatic clamp for convenient paper removal (models 1135, 1046).

SOLINGEN STEEL BLADES
High quality, Solingen steel blade sets can be resharpened.

ADJUSTABLE BACK GAUGE
Slide the back gauge to the desired position as indicated on the scale, then tighten knob to set.

ERGONOMIC HANDLE
The specially designed blade handle was developed to provide both comfort and safety (models 1134–1046).

TRIUMPH 1134

Tabletop trimmer with automatic clamp.

Features:	
Cutting length:	13 3/4"
Sheet capacity:	25*
Table size (D x W):	15" x 12"
Shipping weight:	11 lbs

Dimensions: (D x W x H), inches: 22 1/4 x 13 1/4 x 12

TRIUMPH 1038

Tabletop trimmer with adjustable clamp and paper stop.

Features:	
Cutting length:	15"
Sheet capacity:	50*
Table size (D x W):	23 3/4" x 14"
Shipping weight:	29 lbs

Dimensions: (D x W x H), inches: 31 x 16 x 10

TRIUMPH 1135

Tabletop trimmer with automatic clamp and ergonomic handle.

Features:	
Cutting length:	13 3/4"
Sheet capacity:	25*
Table size (D x W):	15" x 12"
Shipping weight:	13 lbs

Dimensions: (D x W x H), inches: 23 x 13 3/8 x 12 3/4

TRIUMPH 1046

Tabletop trimmer with easy lift lever and clamp.

Features:	
Cutting length:	18"
Sheet capacity:	30*
Table size (D x W):	20" x 14"
Shipping weight:	24 lbs

Dimensions: (D x W x H), inches: 27 1/2 x 15 1/4 x 15

TRIUMPH 1058

Tabletop trimmer with adjustable clamp and paper stop.

Features:	
Cutting length:	22 1/2"
Sheet capacity:	40*
Table size (D x W):	23 3/4" x 14"
Shipping weight:	42 lbs

Dimensions: (D x W x H), inches: 31 x 16 x 10

TRIUMPH 1071

Tabletop trimmer with adjustable clamp and paper stop.

Features:	
Cutting length:	28 1/2"
Sheet capacity:	40*
Table size (D x W):	30" x 20"
Shipping weight:	62 lbs

Dimensions: (D x W x H), inches: 38 1/2 x 22 1/4 x 20 1/2

TRIUMPH 1080

Large format floor model trimmer with paper stops and foot clamp.

Features:	
Cutting length:	31 1/2"
Sheet capacity:	20*
Table size (D x W):	31 1/2" x 23 7/8"
Shipping weight:	158 lbs

Dimensions (D x W x H), inches: 42 1/2 x 26 1/4 x 48
(35 W with fold-away extension table in working position)

TRIUMPH 1110

Large format floor model trimmer with paper stops and foot clamp.

Features:	
Cutting length:	43 1/4"
Sheet capacity:	20*
Table size (D x W):	43 1/4" x 30"
Shipping weight:	182 lbs

Dimensions (D x W x H), inches: 54 3/4 x 32 1/2 x 53 1/2
(41 3/4 W with fold-away extension table in working position)

TRIUMPH 1030

13-inch rotary trimmer with fully enclosed safety cutting head and automatic clamp.

Features:	
Cutting length:	13"
Sheet capacity:	5-6*
Table size (D x W):	6 1/2" x 13"
Shipping weight:	2 lbs

Dimensions (D x W x H), inches: 8 x 18 3/4 x 2 3/8

TRIUMPH 1031

17-inch rotary trimmer with fully enclosed safety cutting head and automatic clamp.

Features:	
Cutting length:	17"
Sheet capacity:	5-6*
Table size (D x W):	6 1/2" x 17"
Shipping weight:	2 1/2 lbs

Dimensions (D x W x H), inches: 8 x 22 1/2 x 2 3/8

TRIUMPH 0055

High quality, 21 1/2-inch manual rotary trimmer with safety cutting head, automatic clamp, and slotted side brackets for cutting oversized formats.

Features:	
Cutting width:	21 1/2"
Cutting height:	1/32"*
Table size (D x W):	11" x 23"
Shipping weight:	13 1/2 lbs

Dimensions (D x W x H), inches: 15 x 31 1/2 x 4 1/4

TRIUMPH 0075

High quality, 29 1/2-inch manual rotary trimmer with safety cutting head, automatic clamp, and slotted side brackets for cutting oversized formats.

Features:	
Cutting width:	29 1/2"
Cutting height:	1/32"*
Table size (D x W):	11" x 29 1/2"
Shipping weight:	16 lbs

Dimensions (D x W x H), inches: 15 x 39 1/4 x 4 1/4

TRIUMPH 0105U

High quality, manual rotary trimmer with safety cutting head, automatic clamp, and slotted side brackets for cutting oversized formats. Mounted on sturdy metal stand with collection tray.

Features:	
Cutting width:	41 1/4"
Cutting height:	1/32"*
Table size (D x W):	11" x 41 1/4"
Shipping weight:	46 lbs

Dimensions (D x W x H), inches: 15 x 51 x 38

TRIUMPH 0155

Large format floor model rotary trimmer

Features:	
Cutting width:	61"
Cutting height:	1/32"*
Table size (D x W):	11 1/2" x 61"
Shipping weight:	88 lbs

Dimensions: (D x W x H), inches: 19 x 68 1/2 x 37

TRIUMPH 0135

Large format floor model rotary trimmer

Features:	
Cutting width:	53"
Cutting height:	1/32"*
Table size (D x W):	11 1/2" x 53"
Shipping weight:	84 lbs

Dimensions: (D x W x H), inches: 19 x 60 1/2 x 37

TRIUMPH TRIMMER KNIFE KITS & ACCESSORIES

Upper and lower knives included.

AEROCUT LINE

As the world of on-demand printing continues to evolve, so too does MBM Corporation.

MBM has assembled a collection of finishing solutions ideally suited for the digital realm. From cutting to creasing to folding, MBM has your digital finishing covered. And when you're ready to move up to single-pass slitting, cutting, creasing and scoring, look no further than the Aerocut Prime and Aerocut Velocity. These all-in-one finishing systems will take your digital production to the highest level.

AEROCUT LINE FEATURES

PATENTED FEEDING MECHANISM
The patented "Tri-Suction Feeding Mechanism" reduces risks of double feeds and mis-feeds drastically.

FLEX MODE
Flex mode allows operators to cut multiple size of cards from a page and add desired numbers of creases on these.

CONVEYOR / STACKER
Engineered to adjust for different stock and sizes of finished pieces on the Aerocut Prime Complete.

JUMP PERFORATOR
Jump perforator allows you to perf the full length of the sheet or pre-determined measurements on the Prime Complete.

STABLE FEED MECHANISM
Stable upper-belt air suction feed system elevates separate digital stocks to avoid mis-feedings, damages and roller marks.

INTUITIVE TOUCH SCREEN
The 7" touch screen allows operators to set job programs and run the machine intuitively and instantly (Prime Complete).

EXPANDABLE FEED TRAY
Expandable tray is capable of feeding stocks up to 26.75" in length. Most stocks for today's digital print can be finished on the Prime. The stacking capacity is 4".

EASY MAINTENANCE
The Velocity and Prime have detachable rollers, not only making cleaning easy, but gives better access to components.

PERFORATING UNIT
A perforating unit is located inside the Prime Complete and Velocity for an accurate registration.

AEROCUT PRIME COMPLETE with INTELLICUT

The Aerocut Prime is an ideal solution for finishing, especially for short-run digitally printed applications, such as business cards, post cards, invitations, greeting cards, leaflets, tickets and more. The complete package offers full versatility and convenience of the machine. The Prime has the capability to perforate stocks both across and along feeding direction by adding on an optional perforating unit. Flex mode allows operators to cut multiple size cards from a page and add the desired number of creases on these; It enables designers and printers to create new aspects of applications. The Prime saves time and costs for any print shop, in-house printer, commercial printer, etc. Channel creasing is equipped on every unit, allowing the machine to offer world-class creases on digitally printed stocks. Creasing pressure can be adjusted in 5 levels instantly by shifting the lever. The Aerocut Prime features 2 single blade slitters to trim top & bottom margins, and 2 double blade slitters for center gutters and precise accuracy. The durable blades cut stocks up to 400 gsm. The air-suction top feeding system easily feeds coated, digital, gloss and other stocks precisely without damage. All-metal construction. Mounted on lockable, heavy-duty casters. Safety access cover—machine will not operate with cover in open position. The Prime Complete comes with a conveyor / stacker. It replaces the rear table for higher production output. Includes the new Lytrod Intellicut software to easily impose artwork + address data to seamlessly create PDF layouts with job barcodes and cut marks for the Prime.

Features:	
Speed:	24 sheets per minute*
Sheet capacity:	4" (stack)
Paper size:	8.27" x 8.27" to 14.5" x 47+ ¹
Paper weight:	120 - 400 gsm / 6 pt. - 16 pt.**
Creases per sheet:	Up to 48
Power supply:	120 V, 60 Hz
Shipping weight:	573 lbs

CONVEYOR / STACKER
The Prime Complete comes with a conveyor/stacker. It replaces the rear table for higher production output.

Dimensions (D x W x H), inches: 30.3 x 57.6 x 41.13

AEROCUT VELOCITY with INTELLICUT

Features a patented feeding mechanism, that drastically reduces the risk of double feeds and mis-feeds. A perforating unit is located inside for an accurate registration. The Velocity is twice as fast and includes more adjustments than base Aerocut Classic with a greater (4") feed table capacity. Includes 268 preset cutting jobs and up to 150 additional custom programs can be stored in memory. Self-correcting registration mark function and the patented Tri-Suction Feeding Mechanism ensure accurate cuts. Velocity is equipped with double feed detection, and also features 2 single blade slitters to trim the top and bottom margins, and 2 double blade slitters for center gutters and precise accuracy. Includes the Lytrod Intellicut software to simplify the task of formatting, imposing, and adding personalized information to documents for fast and efficient cutting on the Velocity Complete.

Features:	
Speed:	20 sheets per minute*
Sheet capacity:	4" (stack)
Paper size:	8.25" x 8.25" to 14.5" x 47+ ¹
Paper weight:	120 - 400 gsm / 6 pt. - 16 pt.**
Creases per sheet:	Up to 48
Power supply:	120 V, 60 Hz
Shipping weight:	529 lbs

Dimensions (D x W x H), inches: 28 x 75.35 x 42

AEROCUT NanoPLUS with VISIONFOCUS™

Features Tri-Suction feed system, InstaSet bar, and an intuitive touch screen with Flex mode for accurate slitler positioning. Feed table elevates to separate digital stocks to avoid misfeeds and/or markings. Self-correcting registration mark feature ensures accurate cuts every time. Able to cut 250 full bleed business cards in 3 minutes. Also equipped with a density sensor for true double feed detection resulting in faster turn times and greater accuracy. The unique InstaSet bar indicates and aligns slitler positions accurately and can be adjusted manually without tools. The touch screen control module comes pre-programmed with 16 jobs and can store up to 40 additional custom programs, as well as 40 Flex Mode programs saving valuable time. Includes the Lytrod VisionFocus to layout your artwork for the NanoPLUS quickly and efficiently.

Features:	
Speed:	20 sheets per minute*
Sheet capacity:	1.2" (stack)
Paper size:	8.25" x 8.25" to 13" x 19"
Paper weight:	120 - 350 gsm / 6 pt. - 14pt.**
Power supply:	120 V, 60 Hz
Shipping weight:	212 lbs

Dimensions (D x W x H), inches: 24.9 x 30.2 x 39.9

FOLDERS / GOCREASE CREASERS

MBM's folder / creaser line features machines for corporate applications as well as high-volume bindery operations.

MBM folders offer the perfect combination of speed, precision, and ease of use, making them ideally suited for small offices, schools, and corporate environments. Automatic programmable models store fold programs in memory and can be set up to run at the touch of a button. Perfect for digital applications, MBM GoCrease creasers allow documents printed on heavy or coated stock to be creased prior to folding, creating a crisper, more accurate fold with no cracking.

FOLDER / GOCREASE CREASER FEATURES

TOP-LOADING PAPER FEED
A top-loading paper feed system allows for continuous operation on the 352S.

COLOR CODED SET-UP
The 98M comes with color-coded fold plate graphics for accurate set up.

FOLD PLATE GRAPHICS
Fold plates with clear graphics and measurements ensure accurate paper stop placement on the 208J.

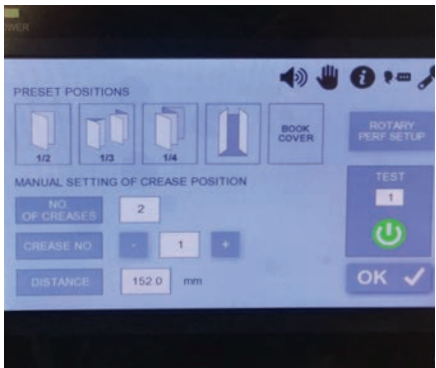

DOUBLE FEED DETECTION
The double feed detection sensor prevents misfolded papers from being contaminated to outputs (408A, 508A, 1800S).

ENCLOSED FOLD TABLES
Fold tables are fully enclosed for quiet operation (models 408A, 508A, 1800S).

HIGH PROGRAMMABILITY
In addition to 6 standard folds, the 1800S is capable of storing up to 30 custom programs in memory.

TOUCHSCREEN PROGRAMMING
Touch screen display for easy setting of distance and numbering of creases (SEMI, F-SPEED, AutoAir).

TOOLS
Easily exchangeable creasing, perforating, and punching tools (F-SPEED, AutoAir).

WASTE DRAWER
The waste drawer is made of metal construction and built to endure everyday use with no wear and doubles as a handy drawer for tools (F-SPEED, AutoAir).

MBM 98M

Friction feed manual folder featuring a digital control panel and push-button operation.

Features:	
Speed, sheets per hour:	7,200*
Paper size:	4" x 5" to 8 1/2" x 14"
Paper weight:	16 lbs to 80 lbs*
Sheet capacity:	150*
Electrical requirements:	120 V, 60 Hz
Shipping weight:	39 lbs

Dimensions (D x W x H), inches: 14 x 25 x 16 3/4

MBM 208J

Friction feed manual folder that sets up easily for a variety of standard and custom folds.

Features:	
Speed, sheets per hour:	14,400*
Paper size:	3 1/2" x 5" to 11" x 17"
Paper weights:	12 lbs to 80 lbs*
Sheet capacity:	500*
Electrical requirements:	115 V, 60 Hz
Shipping weight:	73 lbs

Dimensions (D x W x H), inches: 21 1/2 x 40 5/8 x 19 3/4

MBM 408A

Dependable automatic folder that comes pre-programmed with 18 standard folds. Up to 12 custom jobs can be stored in memory.

Features:	
Speed, sheets per hour:	14,400*
Paper size:	3 1/2" x 5" to 11" x 17"
Paper weight:	12 lbs to 80 lbs*
Sheet capacity:	500*
Electrical requirements:	115 V, 60 Hz
Shipping weight:	76 lbs

Dimensions (D x W x H), inches: 39 3/4 x 21 1/2 x 19 3/4

MBM 508A

Reliable automatic folder that comes pre-programmed with 18 standard folds. Up to 24 custom jobs can be stored in memory.

Features:	
Speed, sheets per hour:	14,400*
Paper size:	3 1/2" x 5" to 11" x 17"
Paper weight:	12 lbs to 80 lbs*
Sheet capacity:	500*
Electrical requirements:	115 V, 60 Hz
Shipping weight:	82 lbs

Dimensions (D x W x H), inches: 39 3/4 x 21 1/2 x 19 3/4

MBM 1800S

Automatic air feed folder perfectly suited for digital work. 30 custom folds and non-standard paper sizes can be stored in memory.

Features:	
Speed, sheets per hour:	18,000*
Paper size:	4 1/2" x 8 1/4" to 13" x 19"
Paper weight:	16 lbs to 80 lbs*
Sheet capacity:	800*
Electrical requirements:	120 V, 60 Hz
Shipping weight:	189 lbs

Dimensions (D x W x H), inches: 24 x 49 x 23

MBM 352F

Versatile, high speed friction folder that sets up easily for standard and custom folds.

Features:	
Speed, sheets per hour:	22,000*
Paper size:	2" x 2 3/4" to 14" x 21 1/4"
Paper weight:	13 lbs to 110 lbs*
Sheet capacity:	300*
Electrical requirements:	115 V, 60 Hz
Shipping weight:	105 lbs

Dimensions (D x W x H), inches: 22 1/4 x 41 3/4 x 14 1/2

MBM 352S

High speed, air feed folder ideally suited for high-volume digital production.

Features:	
Speed, sheets per hour:	30,000*
Paper size:	3 3/8" x 4 3/4" to 12 5/8" x 17 3/4"
Paper weight:	13 lbs to 110 lbs*
Sheet capacity:	450*
Electrical requirements:	115 V, 60 Hz
Shipping weight:	312 lbs

Dimensions (D x W x H), inches: 22 1/4 x 51 1/4 x 43 1/2

GoCrease 3000

Manual creasing and perforating tabletop machine designed with a large working width for modern capability, enhanced quality of perforation, and angle-adjustable side guide.

Features:	
Paper size:	12.6" x 17.7"
Paper weight:	80 - 400 gsm (creasing) 80 - 250 gsm (perforating)
Max. working width:	12.6"
Shipping weight:	27.5 lbs

Dimensions (D x W x H), inches: 14.5 x 19 x 15.5

GoCrease 4000

The GoCrease™ 4000 electric foot pedal operated creasing and perforating machine gives high output production with ease while boasting a working area for a larger sheet format than most models.

Features:	
Paper size:	18" x 23.4"
Paper weight:	80 - 400 gsm (creasing)
	80 - 250 gsm (perforating)
Max. working width:	18"
Channel width:	0.04" / 0.05" / 0.063"
Power supply:	110 V, 60 Hz
Shipping weight:	92.6 lbs

Dimensions (D x W x H), inches: 23.5 x 28 x 12

GoCrease SEMI

Semi-automatic programmable machine operated by touch screen display enabling fast and accurate setting of distance and number of creases/perfs.

Features:	
Speed:	1,500 sheets per hour
Paper weight:	80 - 400 gsm (creasing)
	80 - 250 gsm (perforating)
Max. working width:	18"(w/o operator's side guide)
Channel width:	0.04" / 0.05" / 0.063"
Max. creases per sheet:	15
Power supply:	110 V, 60 Hz
Shipping weight:	120 lbs

Dimensions (D x W x H), inches: 23.5 x 45 x 12

GoCrease F-SPEED

Unique automatic friction feed creasing, perforating, and punching machine.

Features:	
Speed:	2,500 sheets per hour
Paper weight:	80 - 400 gsm (creasing)
	80 - 250 gsm (perforating)
	80 - 400 (punching)
Max. working width:	18" (crease & perf) 17.7" (punch)
Channel width:	0.04" / 0.063"
Max. creases per sheet:	15
Power supply:	110 V, 60 Hz
Shipping weight:	346 lbs (includes mobile table)

Dimensions (D x W x H), inches: 26.5 x 50 x 20.5 (48 with table)

GoCrease AutoAir

Automatic suction feed creasing, perforating, and punching machine with speeds up to 3,000 sheets per hour.*

Features:	
Speed:	3,000 sheets per hour
Paper weight:	80 - 400 gsm (creasing)
	80 - 250 gsm (perforating)
	80 - 400 (punching)
Max. working width:	18" (crease & perf) 17.7"(punch)
Channel width:	0.04" / 0.063"
Max. creases per sheet:	40
Power supply:	110 V, 60 Hz
Shipping weight:	415.6 lbs (includes mobile table)

Dimensions (D x W x H), inches: 31 x 48 (57) x 28.5 (48 with table)

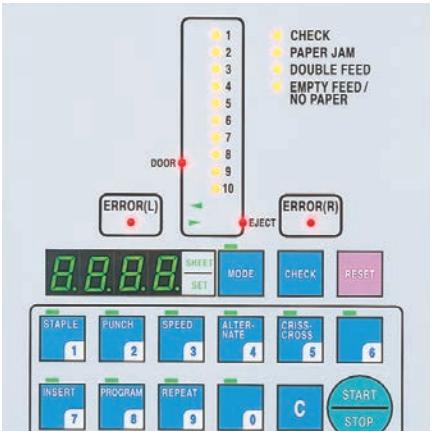

COLLATORS

The FC 10 Automatic Collator is one of the most versatile collators on the market today. Reliable and easy to use, it interfaces with a variety of bookletmakers including the MBM Sprints and SF2 series.

A variety of performance enhancing options are available for the FC 10. The corner stapler attachment is capable of stapling up to 10 sheets at a time. The twin tower transport unit allows two FC 10's to work in tandem as a 20-bin collating system. A heavy-duty base mounted on casters allows easy mobility. The FC 10 is certified by Underwriters Laboratories for the US and Canada.

COLLATOR FEATURES

CONTROL PANEL
Programming and operation is controlled from an easy-to-use touch-button control panel.

CRISS-CROSS STACKING
The criss-cross stacking feature allows easy set separation.

DETACHABLE FEED TRAYS
Extra large, detachable feed trays ensure organized collection of papers.

CORNER STAPLER
Corner stapler attached is capable of stapling up to 10 sheets at a time.

TWIN TOWER SYSTEM
Collator units can be used in tandem or separately while connected.

FC 10

Collates variety of paper stocks and weights at speeds up to 3,600 sets per hour.* 275 sheet bin capacity.* Touch-button control panel with LED 4 digit counter simplifies set-up and operation. Programming modes include preset batch, insertion, and an alternate bin mode for continuous production. Adjustable stacking table for straight or criss-cross stacking. Self-centering feed guides eliminate the need to reposition on-line bookletmakers for different size stock. Adjustable feed and separator pressures on each bin. Bin empty sensor. Extra large, detachable feed trays. Optional base with casters, twin tower transport unit, and corner stapler UL and C UL approved.

Features:	
Number of bins:	10
Bin capacity:	275 sheets*
Paper size:	3 3/4" x 5 7/8" to 12 7/8" x 18 1/2"
Paper weight:	20 lbs to 100 lbs
Speed:	3,600 sets per hour*
Power supply:	110 V, 60 Hz
Shipping weight:	231 lbs (281 with base)

Dimensions (D x W x H), inches: 21 x 28 x 41 1/4 (34 W, 63 H with base)

*May vary due to variations in paper and power supply

FC 10 TWIN TOWER

Collates variety of paper stocks and weights at speeds up to 3,600 sets per hour.* 275 sheet bin capacity.* Collator units can be used in tandem or separately while connected. Touch-button control panel with LED 4 digit counter simplifies set-up and operation. Programming modes include preset batch, insertion, and an alternate bin mode for continuous production. Adjustable stacking table for straight or criss-cross stacking. Self-centering feed guides eliminate the need to reposition on-line bookletmakers for different size stock. Adjustable feed and separator pressures on each bin. Bin empty sensor. Extra large, detachable feed trays. Optional bases with casters. UL and C UL approved.

Features:	
Number of bins:	20
Bin capacity:	275 sheets
Paper size:	3 3/4" x 5 7/8" to 12 7/8" x 18 1/2"
Paper weight:	20 lbs to 100 lbs
Speed:	Up to 3,600 sets per hour*
Power supply:	110 V, 60 Hz
Shipping weight:	487 lbs (587 with bases)

Dimensions (D x W x H), inches: 27 5/8 x 86 1/2 x 41 1/4 (90 1/2 W, 63 H with bases)

*May vary due to variations in paper and power supply

BOOKLETMAKERS

Speed and versatility are the hallmarks of MBM bookletmakers and finishing systems. Our Sprint series models enjoy a solid reputation in the print finishing industry for performance and dependability. The revolutionary SF2 bookletmaker utilizes wire-fed stitching technology previously found only in larger systems costing up to three times more.

The Sprint 3000 and 5000 bookletmakers have long been regarded as tops in the industry. Paired with an optional trimmer, either model may be combined with a variety of collators including the MBM FC 10 for a complete document finishing system. Both feature easy set-up and adjustment, variable speed, and powered exit conveyors. The SF2 bookletmaker utilizes a patented wire-fed stitching system that eliminates the need for pre-formed staples. This low maintenance machine jogs, stitches, and folds up to 65,000 booklets before the spools need replacing. An optional trimmer can be combined with the SF2 for the ultimate booklet finishing system.

BOOKLETMAKER FEATURES

OPTIONAL TRIMMER
An optional face trimmer trims booklets up to 100 pages on the Sprint 3000 and Sprint 5000 pictured above.

POWERED CONVEYOR
A powered exit conveyor stacks booklets neatly and folds away for compact storage (Sprint 3000, Sprint 5000).

SAFETY ACCESS COVER
The transparent safety access cover will not allow machine to operate when open (Sprint 3000, Sprint 5000).

ONE-STEP THREADING
Magnetic stitching heads feature one-step threading for quick and easy set-up (SF2).

DUAL PURPOSE WORK TABLE
The wide, 16-inch work table converts easily between flat and saddle stitching on the Stitchmaster.

POWERED CONVEYOR (SF2)
The powered conveyor on the bookletmaker or trimmer stacks booklets neatly.

HEAVY DUTY STAPLERS
The iBOOKLET has specially made heavy duty stapler heads that can staple up to 16 sheets with fewer jams and errors.

EASY STAPLE LOADING
Reloading staples into a stapler magazine is quick and easy (iBOOKLET).

SETTING WITHOUT ANY TOOLS
The iBOOKLET requires no tools to change staple head locations. Stapler head locations can be chosen from 5 slots.

SPRINT 3000

Jogs, staples, and folds in one operation. Quick and easy set-up and adjustment. Variable speed produces booklets up to 100 pages (off-line).* 2 stapling heads, 4 stapling positions. Uses 210-staple sticks. Powered exit conveyor. Transparent safety access cover—machine will not operate with cover in open position. Mounted on heavy-duty casters. Optional interface for on-line use with the MBM® FC 10. Optional face trimmer.

Features:	
Speed:	1,500 sets per hour*
Sheet capacity:	25*
Paper size:	5 1/2" x 8" to 12" x 18"
Power supply:	115 V, 60 Hz
Shipping weight:	280 lbs

Dimensions (D x W x H), inches: 23 x 46 x 36 (20" W with conveyor stored)

5/16" STAPLES
AC0857

1/4" STAPLES
AC0870

SPRINT 5000

Jogs, staples, and folds in one operation. Quick and easy set-up and adjustment. Variable speed produces booklets up to 88 pages (off-line).* On-line saddle, corner, and side stapling capability. "Fold only" capability. Heavy-duty staple clinchers produce "flat-finish" staples. 2 stapling heads, 5 stapling positions uses high-capacity, 5,000-staple cartridges. Auto-stop and signal when staple cartridge is empty. Powered exit conveyor. Transparent safety access cover—machine will not operate with cover in open position. Mounted on heavy-duty casters. Optional interface for on-line use with the MBM® FC 10. Optional face trimmer.

Features:	
Speed:	1,500 sets per hour*
Sheet capacity:	22*
Paper size:	5 1/2" x 8" to 12" x 18"
Power supply:	115 V, 60 Hz
Shipping weight:	280 lbs

Dimensions (D x W x H), inches: 23 x 46 x 36 (20" W with conveyor stored)

NOTES:

This image shows a single sheet of white paper with horizontal ruling lines. The lines are evenly spaced and run across the width of the page. There are no margins, text, or other markings on the paper.

SUPPORT PRODUCTS

MBM’s line of print finishing support products includes paper joggers, pressure sealers, drills, and everything needed for the ultimate finishing system.

The AJ 700 air-feed paper jogger forces air between sheets to reduce jogging time and eliminate powder buildup and static. It also allows press sheets and digital copies to be dried immediately after printing to prevent offset. MBM drills feature a deep, 2 inch drilling capacity and movable tables mounted on bearings for precise paper positioning. The 25 and 55 tabletop models feature 5 pre-set patterns which can be selected at the turn of a dial.

SUPPORT PRODUCT FEATURES

AUTOMATIC TIMER (AJ700)
The timer function allows the operator to attend to other jobs while paper is being jogged.

ANGLED SEAL TECHNOLOGY (ES2000)
Innovative and exclusive angled seal technology provides superior sealing capabilities.

DOUBLE FEED DETECTION
Advanced sensors detect double feeds and automatically stops the ES5500 to prevent jams.

EASY SET-UP
Fold positions are easily set and adjusted.

MANUAL FEEDER
The manual feed slot allows processing of pre-folded forms.

EASY USER INTERFACE
Includes auto stop and auto re-start function, electronic thickness detection, and batch counter.

JT 7 JOGGER

Significantly reduces misfeeds and double feeds in printers, folders, and collators. Space saving, compact footprint. V-shaped, adjustable-angle table. 4 inch tray thickness. Foot pedal operation or continuous. All-metal construction.

Features:	
Paper size:	5" x 7 3/8" to 12 7/8" x 17 3/4"
Sheet capacity:	1,000*
Power supply:	115 V, 60 Hz
Shipping weight:	46 lbs

Dimensions (D x W x H), inches: 12 1/2 x 21 x 17 1/4

AJ 700 AIR-FEED JOGGER

Air-feed feature forces air between sheets to reduce jogging time and eliminate powder buildup. Press sheets and digital copies can be air dried immediately to prevent offset. Air-only and vibrate-only functions. Significantly reduces misfeeds and double feeds in printers, folders, and collators. V-shaped, adjustable-angle table. 4 inch tray thickness. Foot pedal operation or continuous. Automatic timer.

Features:	
Paper size:	5" x 7 3/8" to 12 7/8" x 17 3/4"
Sheet capacity:	1,000*
Power supply:	115 V, 60 Hz
Shipping weight:	84 lbs

Dimensions (D x W x H), inches: 17 x 22 x 45 1/4

MBM 25 DRILL

Two inch drilling capacity. 5 pre-set patterns available at the turn of a dial. Easy-glide table moves on bearings. Side guides are self-centering for quick changes. Quick-release clamp. Accommodates 5/32", 13/64", 7/32", and 1/4" drill bits. High quality, 1/4" bit included along with sharpener and honing stone.

Features:	
Drilling capacity:	2"
Maximum throat depth:	1 3/8"
Maximum paper length:	14 3/4"
Maximum drill bit size:	1/4"
Table size:	18 7/8" x 10"
Maximum horsepower:	1/4
Power supply:	115 V, 60 Hz
Shipping weight:	39 lbs

Dimensions (D x W x H), inches: 14 1/8 x 18 7/8 x 18 1/2

MBM 55 DRILL

Two inch drilling capacity. 5 pre-set patterns available at the turn of a dial. Easy-glide table moves on bearings. Side guides are self-centering for quick changes. Quick-release clamp. Accommodates 7/64" to 1/2" drill bits. Two high quality bits (1/4" and 5/16") included along with sharpener and honing stone.

Features:	
Drilling capacity:	2"
Maximum throat depth:	1 3/8"
Maximum paper length:	14 3/4"
Maximum drill bit size:	1/2"
Table size:	18 7/8" x 10"
Maximum horsepower:	1/2
Power supply:	115 V, 60 Hz
Shipping weight:	81 lbs

Dimensions (D x W x H), inches: 17 x 18 7/8 x 24 1/2

FMM3 DRILL

Two inch drilling capacity. Easily adjustable head design. Easy-glide table moves on bearings. Measuring scale on table. Accommodates 1/8” to 1/2” drill bits. Three high quality, 1/4” bits included. Bit sharpener with solid carbide head included.

Features:	
Drilling capacity:	2”
Maximum throat depth:	3 3/4”
Maximum paper length:	32”
Maximum drill bit size:	1/2”
Table size:	32” x 15”
Maximum horsepower:	3/4
Power supply:	115 V, 60 Hz
Shipping weight:	292 lbs

Dimensions (D x W x H), inches: 15 x 32 x 52

MBM ES 2000 SEALER

Quickly and easily folds and seals single-sheet self mailers. Provides an environmentally friendly mailing solution by eliminating envelopes. Can be used for a wide variety of applications including paychecks, invoices, tax forms (W2, 1099, etc.), medical reports, and ID cards. Easy to set up and maintain. Proprietary angled seal technology provides exceptional fold and seal quality. 4 fold settings (Z, V, EZ, double parallel).

Features:	
Speed:	2,200 sheets per hour

REPLACEMENT PARTS

- 1 year limited warranty on mechanical parts, 90-day limited warranty on electrical and electronic parts

MBM Corporation agrees to repair or replace, at its option, any defective part or component covered by this warranty, provided there is no evidence of abuse and we first receive written notice of a defect within the applicable warranty period. Wearable items are not covered under warranty. Wearable items include, but are not limited to: blades, sticks, staple heads, light bulbs, rubber rollers, belts, feed stones, separator pads, fuses, clutches, and brakes. This warranty extends only to the original purchaser and does not include labor or the payment of any labor charges or incidental or consequential expenses. Warranty claims must be submitted with replacement part order. MBM Corporation makes no further warranty of any kind and specifically disclaims any warranty of merchantability for a particular purpose. FOB North Charleston, SC for products sold in the US. FOB Ontario for products sold in Canada.
